## NEWS RELEASE

### **FASAB Staff Releases Proposed Staff Implementation Guidance 6.1, Clarification of Paragraphs 40-41 of SFFAS 6, *Accounting for Property, Plant, and Equipment*, as amended**

The executive director of the Federal Accounting Standards Advisory Board (FASAB), Wendy Payne, announced today that FASAB staff released proposed Staff Implementation Guidance (SIG) 6.1, Clarification of Paragraphs 40-41 of SFFAS 6, *Accounting for Property, Plant, and Equipment*, as amended. The proposed SIG is intended to assist preparers in the application of FASAB literature. SIG does not establish new requirements.

After the issuance of Statement of Federal Financial Accounting Standards (SFFAS) 50, *Establishing Opening Balances for General Property, Plant, and Equipment: Amending Statement of Federal Financial Accounting Standards (SFFAS) 6, SFFAS 10, SFFAS 23, and Rescinding SFFAS 35*, a question regarding use of both the alternative methods for establishing opening balances and the alternative for estimated net remaining cost per the second sentence in paragraph 41 of SFFAS 6, as amended, was raised.

The SIG answers the question and provides additional explanation. "The proposal should resolve unnecessary ambiguity in current standards," according to Ms. Payne.

FASAB staff requests comments on the proposal by **May 31, 2018**. Please respond if you agree or disagree with the SIG or foresee unintended consequences with its issuance. Respondents are encouraged to provide the reasons for their positions. The proposed SIG in PDF format is available at the FASAB website at <http://www.fasab.gov/documents-for-comment/>.

## ABOUT FASAB

FASAB serves the public interest by improving federal financial reporting through issuing federal financial accounting standards and providing guidance after considering the needs of external and internal users of federal financial information.

Financial reports, which include financial statements prepared in conformity with generally accepted accounting principles, are essential for public accountability and for an efficient and

effective functioning of our democratic system of government. Thus, the Board plays a major role in fulfilling the government's responsibility to be publicly accountable. Federal financial reports should be useful in assessing (1) the government's accountability and its efficiency and effectiveness and (2) the economic, political, and social consequences, whether positive or negative, of the allocation and various uses of federal resources.

FASAB issues federal accounting standards after following a due process consistent with the Memorandum of Understanding under which it operates. Due process includes consideration of the financial and budgetary information needs of citizens, congressional oversight groups, executive agencies, and the needs of other users of federal financial information.

For more information on FASAB, please visit our website: [www.fasab.gov](http://www.fasab.gov).
