Dear Ms. Payne:

Perhaps your invitation for comments should have included some category our nation's future generations of taxpayers.

While I don't envy your task, it would certainly be refreshing to see included some comments from citizen-taxpayers, particularly the younger generations whose lives will so dramatically impacted.

Transparency and honesty may be painful to all, but the consequences of continued obfuscation are far more damaging to our future as a nation.

Respectfully,

William Fleeman  
Davis, CA
