

QUESTIONS FOR RESPONDENTS

The Board encourages you to become familiar with all proposals in the Statement before responding to the questions in this section. In addition to the questions below, the Board also would welcome your comments on other aspects of the proposed Statement. Because the proposals may be modified before a final Statement is issued, it is important that you comment on proposals that you favor as well as any that you do not favor. Comments that include the reasons for your views will be especially appreciated.

The Board believes that this proposal would improve federal financial reporting and contribute to meeting the Federal financial reporting objectives. The Board has considered the perceived costs associated with this proposal. In responding, please consider the expected benefits and perceived costs and communicate any concerns that you may have in regard to implementing this proposal.

The questions in this section are available in a Word file for your use at www.fasab.gov/documents-for-comment/. Your responses should be sent by e-mail to fasab@fasab.gov. If you are unable to respond by e-mail, please fax your responses to (202) 512-7366. Alternatively, you may mail your responses to:

Wendy M. Payne, Executive Director
Federal Accounting Standards Advisory Board
Mailstop 6H19
441 G Street, NW, Suite 6814
Washington, DC 20548

All responses are requested by **January 6, 2017**.

- Q1. The Board is proposing to define a **lease** as a contract or agreement that conveys the right to use a nonfinancial asset (the underlying asset) for a period of time in an exchange transaction. The current lease standards, Statement of Federal Financial Accounting Standards (SFFAS) 5, *Accounting for Liabilities of the Federal Government* and SFFAS 6, *Accounting for Property, Plant, and Equipment*, do not specifically define a lease. SFFAS 5 and SFFAS 6 only define a capital lease as a "lease that transfers substantially all the benefits and risks of ownership to the lessee." The Board believes that the more concise definition being proposed is broad enough to capture the diversity of federal leasing activities. The proposed lease definition is presented in paragraph 9 and further explained in paragraph A15.

Do you agree or disagree with the proposed definition of lease presented in paragraph 9 and further explained in paragraph A15? Please provide the rationale for your answer.

Agree - but I would add a short description of distinction between capital & operating lease in the definition.

- Q2. The Board is proposing that the **lease term** be determined as the period during which a lessee has a noncancelable right to use an underlying asset (referred to as the noncancelable period) plus each option period if it is probable, based on all

relevant factors, that the lessee will exercise that option to extend the lease. The lease term proposal also provides guidance on the noncancelable period and on how specific provisions (such as fiscal funding/cancellation clauses and month-to-month lease holdovers) should be applied. The proposed lease term requirements are presented in paragraphs 14 – 18 and further explained in paragraphs A16 - A18.

Do you agree or disagree with the proposed guidance on determining the lease term as presented in paragraphs 14 - 18 and further explained in A16 - A18? Please provide the rationale for your answer.

Agree - I would add additional clause on determining probability of exercising renewal option to be little more clear.

- Q3. The Board is proposing that at the beginning of the lease term, a lessee should recognize a lease liability and a property, plant, and equipment right-to-use lease asset (the lease asset), except for intragovernmental and short-term leases. The proposed lease recognition requirements are presented in paragraph 19.

Do you agree or disagree with the proposed lessee recognition of a lease at the beginning of the lease term as presented in paragraph 19? Please provide the rationale for your answer.

Agree - appears to be consistent with FASB standard updates on lease.

- Q4. The Board is proposing that a lessee should measure the **lease liability** initially at the present value of payments to be made for the lease term. In addition, the measurement of the lease liability should include the several types of payments that might be required by a lease. The proposed lease liability measurement and recognition requirements are presented in paragraphs 21 – 29 and further explained in paragraphs A20 - A21.

Do you agree or disagree with the proposed lessee measurement and recognition of the lease liability as presented in paragraphs 21 - 29 and further explained in paragraphs A20 - A21? Please provide the rationale for your answer.

Agree - appears to be consistent with FASB standard updates on lease.

- Q5. The Board is proposing that the future lease payments should be discounted using **the rate the lessor charges the lessee**, which may be the interest rate implicit in the lease. If the rate cannot be reasonably estimated by the lessee, the **lessee's incremental borrowing rate**¹ (the estimated rate that would be charged for borrowing the lease payment amounts for the lease term) should be used. The specific proposed requirement is presented in paragraph 23.

a. Do you agree or disagree that the rate the lessor charges the lessee, which may be the interest rate implicit in the lease, should be used to measure the future lease payments as presented in paragraph 23? Please provide the rationale for your answers.

Agree - the interest rate is used in the formula for present value of future lease payments so the paragraph 23 appears reasonable.

b. Do you agree or disagree that the lessee's incremental borrowing rate should be used to measure the future lease payments when the lessor rate cannot be reasonably estimated by the lessee as presented in paragraph 23? Please provide the rationale for your answers.

Agree - the incremental borrowing rate is the reasonable estimate for the interest rate to be used for the present value calculation.

¹ A federal lessee's incremental borrowing rate would be the Department of the Treasury borrowing rate for securities of similar maturity to the term of the lease unless the entity has its own borrowing authority.

Q6. The Board is proposing that the lessee should remeasure the lease liability at subsequent financial reporting dates if certain changes have occurred and are expected to significantly affect the amount of the lease liability. The Board is also proposing that the lease asset should generally be adjusted by the same amount when the corresponding lease liability is remeasured based on those changes. Additionally, if the change reduces the carrying value of the lease asset to zero, any remaining amount should be reported in the flows statement as a gain. The proposed lessee requirements for remeasurement are presented in paragraphs 25 – 29, 33, and further explained in paragraph A19.

a. **Do you agree or disagree with the circumstances when the lessee must remeasure the lease liability as presented in paragraph 25? Please provide the rationale for your answer.**

Agree - changes in the circumstances listed in paragraph 25 would significantly change the present value of lease and the lease liability that remeasurement would reflect more accurate balance of the liability/asset.

b. **Would the requirements triggering remeasurement cause undue costs? Please provide the rationale for your answer.**

It would cost to remeasure but it is necessary to accurately report the asset/liability related to the lease. Small changes in one factor could cause significant change in lease asset/liability.

c. **Do you agree or disagree with the effect of the remeasurement on the carrying value of the lease asset as presented in paragraph 33 and further explained in paragraph A19? Please provide the rationale for your answer.**

Agree - the lease asset value would move with the value of the lease liability.

Q7. The Board is proposing that a lessee should measure the **lease asset** initially as the sum of (1) the amount of the initial measurement of the lease liability, (2) lease payments made to the lessor at or before the beginning of the lease, less any lease incentives received from the lessor, and (3) initial direct costs that are ancillary charges necessary to place the lease asset into service. The proposed lessee lease asset measurement and recognition requirements are presented in paragraphs 30 – 34 and further explained in paragraph A22.

Do you agree or disagree with the proposed lessee measurement and recognition of the lease asset as presented in paragraphs 30 - 34 and further explained in paragraph A22? Please provide the rationale for your answer.

Agree - appears to be consistent with FASB standard updates on lease.

Q8. The Board is proposing that at the beginning of the lease term, a lessor should recognize a **lease receivable and deferred revenue**, except for intragovernmental and short-term leases. The proposed requirements for the measurement and recognition of the lessor lease receivable and deferred revenue are presented in paragraphs 36 – 48 and further explained in paragraphs A23 - A24.

Do you agree or disagree with the proposed lessor measurement and recognition of the lease receivable and deferred revenue as presented in paragraphs 36 - 48 and further explained in paragraphs A23 - A24? Please provide the rationale for your answer.

Agree - this would match with lessee's book.

Q9. The Board is proposing to define a **short-term lease** as a lease that, at the beginning of the lease, has a maximum possible term under the contract/agreement of 24 months or less, including any options to extend, regardless of its probability of being exercised. The proposed requirements for the measurement and recognition of a short-term lease are presented in paragraphs 59 – 61 and further explained in paragraph A25.

Do you agree or disagree with the proposed definition and measurement and recognition of a short-term lease as presented in paragraphs 59 - 61 and further explained in paragraph A25? Please provide the rationale for your answer. Agree - but what about at the time of remeasurement presented in paragraph 25-29?

- Q10. The Board is proposing to establish distinct standards for **intragovernmental leases**. An intragovernmental lease is a contract or agreement that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration occurring within a consolidation entity or between two or more consolidation entities as defined under SFFAS 47, *Reporting Entity*. The proposed requirements for the measurement, recognition, and disclosure of intragovernmental leases are presented in paragraphs 75 – 95 and further explained in paragraphs A26 - A29.

Do you agree or disagree with the proposed definition, measurement, recognition, and disclosures of intragovernmental leases as presented in paragraphs 75 - 95 and further explained in paragraphs A26 - A29? Please provide the rationale for your answer. Not sure why intragovernmental lease is treated differently.

- Q11. The Board is proposing that leases unexpired at the beginning of the reporting period in which the standard is implemented be recognized and measured using the facts and circumstances that exist at the beginning of the reporting period. The proposed implementation requirements are presented in paragraphs 99-100.

Do you agree or disagree with the proposed prospective implementation approach as presented in paragraphs 99 - 100? Please provide the rationale for your answer. Agree - to consistently report all components of reports.

- Q12. The Board is proposing that the requirements of this Statement be effective for reporting periods beginning after September 30, 2018. The proposed effective date is presented in paragraph 101.

Do you agree or disagree with the proposed effective date as presented in paragraph 101? Please provide the rationale for your answer.

Disagree - Less than 2 years may not be enough time to evaluate all leases including the existing leases that are unexpired to be included in the evaluation.
