Memorandum

To: Members of the Board

From: Eileen W. Parlow, Assistant Director

Through: Wendy M. Payne, Executive Director

Subj: Non-Federal Investments: Status **Tab H – 3**¹

MEETING OBJECTIVE

The objective of this session is to update the Board on the status of the project on Non-Federal Investments. Unless a member requests, the update will not be a discussion item on the agenda.

BRIEFING MATERIAL

This memorandum includes a discussion of the project and a summary timeline.

BACKGROUND

In accordance with the Board's decision at the August 2011 Board meeting, this project will primarily focus on investments and other assets resulting from the federal government's intervention/bailout activities.

The primary objectives of this project are to address how these investments should be reported in order to assist report users in determining:

- a) Operating Performance: What and where are the important assets of the U.S. government, and how effectively are they managed?
- b) Stewardship: Did the government's financial position improve or deteriorate over the period?

The specific objectives of this project are:

- a) Establish definitions and meaningful categories of investments

¹ The staff prepares Board meeting materials to facilitate discussion of issues at the Board meeting. This material is presented for discussion purposes only; it is not intended to reflect authoritative views of the FASAB or its staff. Official positions of the FASAB are determined only after extensive due process and deliberations.

- b) Develop recognition and measurement guidance, including remeasurement
- c) Develop disclosure requirements

Staff will work with a task force with the proposed representatives:

- One representative from the Government Accountability Office (GAO) with audit expertise in the government's non-federal investments
- One representative from the Office of Management and Budget (OMB) with subject-matter expertise in credit reform accounting
- One representative from Treasury Office of Financial Stability
- Other federal subject matter experts TBD
- Non-federal subject matter experts TBD

The task force will consider existing FASAB concepts and standards as well as relevant legislation. The task force will also consider relevant standards in other domains as needed. The purpose of the investments and other assets and the reporting objectives for the federal government will be considered in developing proposed standards.

SUMMARY TIMELINE

Per the discussion at the August 2011 Board meeting, a revised estimate for the completion of this project is two years. In addition, task force meetings must accommodate task force members' availability on conjunction with the federal reporting cycle.
