### FASAB GAAP HIERARCHY QUESTIONS

**QUESTION 1.1:** The federal GAAP hierarchy in SFFAS 34 provides the sources of accounting principles and the framework for selecting the principles used in the preparation of general purpose financial reports of federal entities that conform with GAAP. **Do you agree that SFFAS 34 clearly and sufficiently explains the federal GAAP hierarchy and its application to federal accounting and reporting?**

**Choose an item.**

**Please explain your response. [Click here to enter text.](#)**

**QUESTION 1.2:** Have you experienced challenges in applying and using the federal GAAP hierarchy in SFFAS 34 to resolve accounting or reporting issues?

**Choose an item.**

**Please explain your response,** including any perceived challenges with applying SFFAS 34 (for example, utility in applying SFFAS 34 to resolving accounting and reporting issues, need to clarify authoritative vs non-authoritative guidance, relationship to other standard setters when FASAB guidance is silent, inconsistencies with different

levels of GAAP, or questions regarding the application of “practices that are widely recognized and prevalent in the federal government.”) [Click here to enter text.](#)

**REEXAMINATION OF FASAB STANDARDS QUESTION**

**QUESTION 2:** Below are the 23 reexamination topic areas for which the Board is requesting your response. Respondents may review [Appendix A: Reexamination Table of Pronouncements](#)<sup>1</sup> in its entirety for a full understanding. **For each reexamination topic (column 1), please indicate the priority level for reexamination from the following options:**

**(1) High priority:** topic and related SFFASs are of significant concern and should be included in the reexamination with priority. Please provide ***no more than five*** high priority topics.

**(2) Medium priority:** topic and related SFFASs are of concern and should be included in the reexamination, but after high priority topics are addressed.

**(3) Low priority:** topic and related SFFASs are not of concern and do not need to be reexamined at this time.<sup>2</sup>

**Please explain your response, including specific details<sup>3</sup> and examples to support your rationale, especially those ranked high priority and medium priority.** Provide information (including specific SFFAS references where appropriate) that would help the Board understand why the reexamination of a particular SFFAS might take precedence or be considered more important than other SFFASs. To accomplish this, the Board is seeking feedback from respondents on where they believe there are opportunities for the Board to improve guidance within the 23 reexamination topics. This includes the following potential improvements:

- Streamlining authoritative guidance
- Eliminating or revising unclear requirements
- Eliminating disclosures and other required information that may no longer benefit users
- Filling gaps in the standards where the guidance either does not address or does not adequately address areas where federal financial reporting objectives are not being met
- Resolving inconsistencies in current practice
- Clarifying the standards (including addressing areas where the standards are difficult to apply)

---

<sup>1</sup> [Appendix A: Reexamination Table of Pronouncements](#) provides more details regarding how the 61 SFFASs result in 23 reexamination topics for consideration.

<sup>2</sup> The Board anticipates that the topics for reexamination will need to be reassessed in the future.

<sup>3</sup> For example, respondents may offer detail in terms of materiality, audit findings, cost-benefit, or other significant information to explain the need for reexamination of the SFFAS.

### Invitation to Comment *Reexamination of Existing Standards*

- Reconsidering areas where there is significant preparer or audit burden versus perceived value of the information or other cost/benefit concerns
- Considering overlaps or redundancy in requirements

Please be explicit regarding opportunities to eliminate or revise requirements, whether those are in the standards or elsewhere. Stakeholder feedback will give the Board insight on respondent's views on these matters.

-----------------	---

### High Priority

Filling gaps in the standards where the guidance either does not address or does not adequately address areas where federal financial reporting objectives are not being met.

Subject: Accounting for Impairment of Inventory

The SFFASs are currently lacking a federal accounting standard framework for the impairment of inventory or stockpile material. The SFFASs are silent as it relates to impairment outside of general, property, plant, and equipment (GPP&E); goodwill; internal use software, and other similar assets. Research of other applicable standards, to include the Financial Accounting Standards Board (FASB) standards for the public sector, also contained limited information in their publications in accounting for these type of impairments (i.e., FASB Topic 350, Intangibles – Goodwill and Other: Accounting Alternative for Evaluating Triggering Events, and Securities (Accounting Standards Codification (ASC) 320, Debt Security)). As part of this research, the factors below were identified as a potential trigger for an impairment review of inventory and stockpile material:

- Unsellable inventory – inventory not able or unlikely to be sold (in the open market).
- Lack of recoverability – asset value will not likely be recovered in the future (future cash

### Invitation to Comment *Reexamination of Existing Standards*

flows less than book value).

- Reduced demand – decrease in market demand (adverse change in regulatory, economic, technological environment or general market conditions (geographical, industry or cash flows).
- Decline in market value – the asset suffered a significant loss in market value.
- Obsolete inventory - material no longer needed due to changes in technology, laws, customs, or operations.
- Permanent vs. temporary decline – permanent reduction in asset value below the market value not expected to recover vs. temporary decline in asset value, expected to recover.

Whether these triggering factors can be used as possible options for impairment is subjective because the Standards do not specifically identify the application of impairment to inventory or stockpile material. The lack of FASAB guidance may impact materiality as it relates to the valuation and reporting of inventory and stockpile material.
