Leave out A-136 & CEAR MD&A Requirements

DUE: February 28, 2021
MD&A Vision Statement: MD&A should summarize information about the financial position and condition of the reporting entity by discussing the entity’s mission, organization, and key financial and performance results to inform users of its financial health and sustainability of major programs.

Therefore, **MD&A should be an objective, concise, and easily readable summary analysis of**

I. the essential few matters causing significant changes to the entity’s (1) financial statement amounts during the current reporting period, and (2) financial, budgetary and key performance trends over past reporting periods;

II. the current and planned actions that will address the essential few opportunities, challenges, and risks that could significantly affect financial statement amounts and key performance results in the future; and

III. the essential few conditions related to systems and controls that could affect the entity’s ability to produce reliable financial information.

MD&A may include references to websites or other areas of the agency financial report that provide additional information when applicable.
The Board identified 11 MD&A Objectives based on the four objectives of federal financial reporting SFFAC #1: pgs 25-34

<td>A number of members recommended that MD&amp;A should also include a summary discussion about ongoing and planned actions to address non-compliance and control weaknesses that may be causing material weaknesses. This includes references to other sections that have a more in depth discussion of those items. Members did not have time to agree upon the wording. Therefore, staff will include these draft objectives in the MD&amp;A vision framework for discussion at a future meeting.</td>
