MEETING OBJECTIVE

This meeting is an education session to assist the Board in preparing for a project to improve budgetary reporting in general purpose federal financial reports (GPFFRs). This session provides an overview of the budget information available to the public through Office of Management and Budget’s (OMB) reporting and GPFFRs, and raises some key topics the Board could consider as the project begins.

BACKGROUND

During the December 17, 2019 meeting, the Board agreed to continue conducting the reporting model phase II - budgetary information project. The reporting community has
expressed concern regarding the understandability of component reporting entity budgetary presentations and the need to improve the public's awareness of discretionary versus mandatory spending and other issues. In addition, because OMB provides detailed budgetary information to the public, the Board may want to consider whether GPFFRs should also present the same information.

Ms. Carol Johnson, OMB, will provide an overview of the President’s Budget and highlight budgetary information included in the consolidated financial report of the U.S. government and agency financial reports. In the process, Ms. Johnson will also highlight key budget terms and concepts.
