Q1. In light of the recently issued Statement of Federal Financial Accounting Standards (SFFAS) 54, *Leases*, this TR proposes to clarify existing TRs by providing conforming amendments (see paragraphs 3 -10). These conforming amendments acknowledge the SFFAS 54 amendments and further clarify the revised lease accounting standards by eliminating outdated references as a result of the new guidance. TR 10, *Implementation Guidance on Asbestos Cleanup Costs Associated with Facilities and Installed Equipment*, and TR 16, *Implementation Guidance for Internal Use Software*, are being amended because internal use software has specifically been scoped out of SFFAS 54, so the language in these TRs is not consistent with SFFAS 54.

Do you agree or disagree with the proposed amendments to TR 10 and TR 16? Please provide the rationale for your answer.

Agree: We have no concerns and are in agreement is eliminating "capital leases" and just calling them "leases".

- Q2.** The TR 16 amendments clarify that reporting entities should capitalize the cost of internal use software, including software licenses, when such software meets the criteria for general property, plant, and equipment in accordance with SFFAS 10, *Accounting for Internal Use Software*, and the lease accounting concepts would not apply.

Do you agree or disagree with the proposed amendments to TR 16 to clarify the capitalization of internal use software cost? Please provide the rationale for your answer.

Agree: As long as the criteria is met for general PPE, we are in agreement. Software as we know can be very expensive and it is welcoming that it is being recognized in a way that makes financial sense. In para 10 page 7, if one could further clarify the cloud computing arrangement it would be helpful since those arrangements can be more complex than what can be simplified in the paragraph.
